

## **Community Arts Fund Program: Support for Downtown Eastside Community Art Projects Project Guidelines**

### **Mandate of the CACV**

Founded in 1946, the mandate of the Community Arts Council of Vancouver (CACV) is to create community through the arts.

### **CACV's Mission and Core Values**

CACV is the voice for the community arts in Vancouver. We explore critical social issues through creative processes. CACV fosters and supports programs, practices and initiatives that develop common understanding through shared experiences.

Our core values are:

**Accountability:** We are transparent and responsive.

**Contribution:** We create opportunities for everyone to contribute and learn.

**Community:** We encourage active participation and collaboration.

**Diversity:** We are open, dynamic and inclusive in our practices and initiatives.

**Creativity:** We value the role of the artist in bringing out the creativity in everyone.

**Meaning:** We seek to bring to light the beauty, issues of social justice and opportunities for healing within our communities.

### **Program Description**

The Community Arts Council of Vancouver is committed to working with organizations that have proven themselves capable of taking the risks necessary to build community arts opportunities that create stronger, more viable futures for people and community.

We are inviting proposals for projects that will help to build bridges of understanding and support between people and groups within the Downtown Eastside community and may also connect with people and groups throughout Vancouver. The community art project can be in any one or more medium: including but not limited to performance/acting, writing, film, music and voice, crafts, sculpture, drawing and visual arts, set design and construction, sound and lighting, digital/media communications.

We expect that most projects will be supported by applicant organizations that have the capacity to leverage additional dollars from other sources – creating a much larger impact on people’s lives and their community.

**The aim of this program is to facilitate community-led renewal through community arts.**

Within this overall aim, we have identified 3 program priorities that are described below.

### **Program Priorities**

The Community Arts Fund Downtown Eastside Community Arts Program supports activities that are focused on at least one of the following:

1. Promote health and well-being through involvement in the arts including opportunities for involvement in the arts as a potential vehicle for employment and income generation for local artists.
2. Promote social transformation through the arts by speaking to social issues and social change in ways that inform and create understanding within and across groups for instance exploring themes of access to nutritious food, adequate housing and income.
3. Build bridges by involving the diverse communities of the Downtown Eastside and people from diverse socio-economic, ethnic and cultural backgrounds in creating shared interests and a shared voice, for example exploring issues of understanding and acceptance of people with mental health challenges; portraying the history and contributions of the numerous cultures composing the Downtown Eastside or incorporating various art forms, cultures and arts practices from multiple cultural groups in the area.

### **Objectives**

Projects should address at least three of the following objectives:

1. Improved health and well-being of Downtown Eastside residents
2. Strengthened community life and greater civic engagement among residents
3. Improved individual and community confidence and pride
4. Opportunities to learn and discover new skills and abilities
5. Increased employment and economic opportunities
6. Safer opportunities for residents and visitors to gather and socialize
